Features

- ★ User Friendly
- ★ Super Star Motivation and Tracking System
- ★ User does not need to know how to read to use the program
- ★ Appropriate for ESL and Special Needs Education
- ★ Target Age 4-7, Grades K-1

Silly Sentences

Silly Sentences is designed to help students build and understand sentences. This mini course is an expanded version of activities found in our Beginning Reading with Phonics course. These skills are so important that we decided that we needed to give students more practice with these skills. This course has three sections:

Learning to Read and Write Sentences Using Pictures:

This course begins with an animated story that teaches writing sentences by connecting words to make a complete idea. It also covers capitalizing the first word in a sentence and using punctuation. Our "Learn the Words" activity gives students the opportunity to learn and hear the words that will be used in the following sections. Students see the sentences with pictures and sound to learn the words and the sentences.

Look and Say: The focus of the first set of activities is using pictures and understanding the meaning of the picture as written in a sentence. Students will see a picture and select the correct sentence that goes with the picture.

Sentence Builder: This activity asks students to place words in the correct order to build a sentence. Once the sentence is completed, the sentence is represented by a picture and the sentence to reinforce building sentences by combining words.

Online: PC, MAC, Chromebook, Android & iPad/iPhone

Beginning Reading with Phonics is included in any subscription to Super Star Online. Compatible with Windows, MAC and Chromebook computers. Can be used on Android devices (download our app) and iPad/iPhones.

Teachers' and Admin Features

- An explanation of the Super Star System
- Class and Individual Progress Reports
- A school wide course usage report
- Teachers' and Site Admin Online Resources Course

Easy-to-Use and Fun

Help Me 2 Learn products feature an easy-to-use navigation system that is user friendly. Then we use games and fun activities that reinforce the learning. The activities and games are all tied together with our "Super Star" system that rewards the student and motivates them to complete all the games and songs, while we track the progress of each student in a colorful and easy to understand report. Once a student has earned a few silver or gold stars, they want to keep on going until they have earned all the stars.
