# **Language Arts Review 3b – Advanced Level II with Sports**

## **Overview/Helpful Tips**

(Appropriate for Grades 2 – and up, target grades 3 - 4)

Dear Teachers:

You are now building on the skills your students have learned in earlier grades. These can be some of the most challenging times as some students seem to lose interest in learning. We have designed Language Arts Review 3b – Advanced Level II with sports to help you keep your students engaged and motivated.

This course was designed specifically from the standards for third grade language arts. It was also designed to help older students who are still struggling with reading by giving them clear instructions, a vocabulary builder and engaging sports games.

By playing Language Arts Review 3b, your class will learn about:

Types of Literature

Writing a Paragraph

Grammar 1 – Nouns, Pronouns, Verbs, and Adjectives

Grammar 2 – Subject Verb Agreement and Verb Tenses

Punctuation and Capitalization

Spelling Strategies

Reading Comprehension Strategies

And more!!!!!!

While we pride ourselves on making our courses easy-to-use and user friendly, we believe that our courses are most effective when used with the guidance of a teacher or a parent.

Language Arts Review 3b includes all the components necessary for effective learning:

1. Instruction - in the form of interactive animated "Coach Time" presentations.
2. "Learn the Words" and Speed Round – to build the vocabulary and reading skills needed to complete the activity or game. In Language Arts Review 3b we use syllables and sentences, instead of phonemes.
3. Engaging Activity or Game – a fun way to use the language arts lesson skills.
4. Pre-Test and Post-Test – proof of progress and mastery of the concepts of the lessons.

5. The Gold Medal Motivational and Data Tracking System – our more advanced version of the Super Star Motivational and Data Tracking System.
6. Teacher Features – to give teachers the controls and reports they need.

**Instruction** – Language Arts Review 3b features our sports coaches. Each coach presents a sports theme in a language arts lesson. These lessons are interactive, so students must interact with the coach to complete the lesson. Once a student completes a presentation, they will earn a training certificate of completion. The lessons use sports analogies to teach language arts. The lessons are animated so that they clearly explain the lesson showing relationships and examples that make the concepts very easy to understand and very interesting. The lessons are presented by adult coaches to young adult characters, so that the lesson will appeal to students of all ages.

**“Learn the Words” and Speed Round** - Teachers (or parents) can be most useful in helping kids with the parts of the lessons that are most difficult or not as much fun. Some kids find that our “Learn the Words” and Speed Rounds are not as much fun as the games. Hard to believe!

Our “Learn the Words” and Speed Rounds are one of the most unique and important component of our courses. These activities not only prepare students for the games or activities that follow, but they show how words are formed from syllables. The whole word is shown, then the syllables, then the word is used in a sentence to show the word in context. Students can mouseover each word or syllable to hear that word or syllable. Students can click on the speaker icon to hear the whole sentence read or they can click on the rules icon or definition icon.

Here are some suggestions and tips for using our “Learn the Words” and Speed Rounds:

- If possible, make the “Learn the Words” and Speed Rounds a whole class activity (you may want to create a new user account for class presentations; you can make this account active or inactive as needed). If you can, project the “Learn the Words” and Speed Rounds to a screen and lead the class through the words, asking the class to repeat the syllables, words, and sentences. You will find that the kids will be more engaged when they participate.
- The “Learn the Words” is followed by a Speed Round. When appropriate, let your kids compete the speed rounds by taking turns. You can let each student complete the speed round or you can create teams and let them take turns. You will find that this will encourage them to do the speed rounds on their own account.
- If a whole class activity is not possible or after the presentation, let the kids work on their own, but make sure that they are not skipping over the “Learn the Words” and Speed Rounds. Watch them complete the speed rounds and

make sure that they complete the speed round to the required level before going on. You have the option of setting this as the default from the Student Management section making the course progressive.

- Our “Speed Rounds” are basically timed flash cards that allow the student to build immediate recognition of the words and sounds. A cumulative point total of the “Speed Rounds” can be found by clicking on the “Speed Round” tab from the “Progress ” page. Check the speed rounds tab to make sure that students are completing the speed rounds to the required level.
- Speed rounds are required to earn a bronze, silver, or gold star certificate of achievement. Students are encouraged to score 15 points or higher before going to the game.

**Engaging Activity or Game** – Each “Coach Time” and “Learn the Words” with a Speed Round is followed by a game. We hear it all the time how much the kids love Super Star and our games are the reason why. Language Arts Review 3a and 3b have some our most engaging and challenging games.

We do have special features for special needs students or students who just can’t handle a challenging game. These features allow the student to complete the activity by answering questions in a multiple-choice quiz, instead of the game. Most of the games require reaching a score to earn a bronze, silver or gold medal.

Students who go directly to the games may find that they don’t know the words or have the skills required to complete the games. If necessary, teachers can make the course progressive to require the student to complete each part of the lesson before going on.

Another reason that our games are among the best is that we offer a wide variety of games and game types. Our games not only require knowledge of the lesson concepts, but also require problem solving and critical thinking. If a student is unable to complete an activity of game to the gold medal level on the first try, they can repeat until they do earn a gold medal. Teachers also have the ability to set the game level difficulty, so that the games are appropriate for the student.

We also suggest that whenever possible, the games be used as a whole class activity or competition. We make several suggestions in our lessons to encourage teachers to use different methods of using our games as a whole class activity. When teachers are able to do this, it takes our lessons to a much higher level of engagement and fun, making the class and school exciting.

The main objective of the games is to engage the student in learning and give the student a way of applying and using the knowledge they have gained in the lesson. We love to hear that students are learning, but they think they are just playing

games. "Your kids will love learning with Super Star!" Isn't that what is all about, developing a love of learning?

**Pre-Test and Post-Tests program** – Language Arts Review 3b is really two programs; the instructional program and a Pre-Test and Post-Test program. We highly recommend that you take advantage of our pre and post-tests. These tests assess and give you a detailed report of each student's ability before and after they use our instructional program. All of the Pre-Tests should be given to your students prior to using our program or lesson, and the Post-Tests should be used after the lesson is completed. There are 8 sections and 25 random questions in each section. The student has a maximum of 2 minutes to complete each section, but if they complete the 25 questions before the 2 minutes is up that section will end, so the tests should not take longer than 20 minutes to complete. Once a student completes a segment, a check will appear on the main menu showing the pre-test was completed. A student cannot retake a pre-test but can retake a post-test. If a student retakes a post-test, only the last results will show.

The Pre-Test can be an important tool to determine if the student is ready for Language Arts Review 3b or if the student has already mastered the concepts of Language Arts Review 3b. If they are unable to complete the Pre-Test or complete it below a random guessing level, you should consider starting them in a lower level course.

To view the Pre-Test and Post-Test results, you will need to login using your teacher account and access the Student Management section from the Teachers & Admins button on the main contents screen of Language Arts Review 3b.

**Gold Medal Motivation and Tracking System** - This is a simple and effective way to keep track of your students as they progress through the activities. It keeps track of their right and wrong answers. By using positive reinforcement and a medal system, students are provided with incentives to get the correct answers. If students complete a game to the required level, they will earn a Bronze Medal, Silver Medal, or Gold Medal.

The Bronze, Silver, or Gold Medals that they have earned are displayed on the Super Star Progress page along with the student's name. The idea is stellar: students will go for the Gold as they successfully complete activities and master Language Arts Review 3b – Advanced Level with Sports!

If a student wants to earn a Gold Medal on an activity where a Bronze or Silver Medal was earned, they can replay the game. This motivational system allows teachers to track an individual student's progress. With your permission, once a student has a medal on every game, has completed all of the instruction and has

completed the speed rounds, they can print out the Bronze, Silver, or Gold Medal Certificate of Achievement, depending on their accomplishment.

Teachers can also access the progress page by clicking on the “Star” button at the bottom center of any page. Other buttons show the Speed Round scores, the lesson view progress and the detailed progress page. More information is available in the back of this guide.

## **Teacher Features**

### **Navigation:**

With you, the teacher, in mind, we have created a simple and intuitive program. Although the English language can be difficult and confusing, we have broken the process of reading into easy to learn steps. We developed the program so that almost any student can use the program successfully with a minimum amount of supervision. However, the program is most effective when teachers supervise their class while using this program.

Simply use the “Next” and “Back” buttons to navigate through the program. You can also use the buttons on the main menu screen. Organized like a traditional book, the first set of buttons takes you to the major sections, while the smaller buttons takes you to individual pages of this “electronic” book. You can always return to the main page of the main menu by clicking on the “Menu” button.

### **Class Management System:**

In most cases, teachers are allowed (managed by the site administrator) to manage their classes. Teachers can then add or remove the courses that are assigned to the class and add or remove students assigned to the class. Teachers can also create sub-classes and add students and courses to the sub-class so that students can have access to the courses that are most appropriate to them. Teachers may also have the ability to add new students to their class or make students inactive if they leave the class.

**Student Management System:** The Student Management features can be accessed from the Teachers & Admins button found on the main contents screen of Language Arts Review 3b. You must sign-in using your teacher account to access these features. From the Student Management screen, you have several options:

- Class Progress Course Report
- Class Pre-test and Post Test Report
- Feature Locks
- Users’ Guide and Lesson Plans

You can read a complete explanation of each of these features in the Student Management section of this guide found near the end of the guide.

- Using your Super Star Online teacher account, be sure to explore our Teacher & Admins Resources course which has written and video tutorials of our teacher features.

**Print Pages:** Our courses features many print pages, which are designed to be a way for students to do the activities in our lessons on paper. You will find the print pages in each lesson of this guide or you can find them in our Student Management section of Language Arts Review 3b. Teachers have permission to print any or all of the pages of this guide and the activity print pages for use in their classroom (teachers may not sell or make the pages available for commercial purposes). Some teachers like to print the activity pages and laminate them so they can be reused.

Have fun!

We congratulate you for your dedication in teaching children through the wonders of technology. We know you will love this program, please consider some of our other titles:

# **Lesson 1: Types of Literature**

- Coach Time
- Learn the Words – Speed Round
- Blowing Balloons

## **OBJECTIVE**

Your students will be able to decipher between poems, fiction and non-fiction literature. They will also be able to recognize characters, the setting, and plot in stories they read.

## **STANDARDS**

- Refer to parts of stories, dramas, and poems when writing or speaking about a text, using terms such as chapter, scene, and stanza; describe how each successive part builds on earlier sections.
- Explain major differences between books that tell stories and books that give information, drawing on a wide reading of a range of text types.
- By the end of the year, read and comprehend literature, including stories and poetry, in the grades 2-3 text complexity band proficiently, with scaffolding as needed at the high end of the range.

## **ACTIVITY**

Click on the “Coach Time” icon and then on “start” and listen to the presentation. Have your class listen, and have them help you answer the questions.

Click on “Next” and then “Start” to go to the Learn the Words section. Begin by placing your mouse over the whole word. Listen to the word the first time and then mouse over the word a second time while your students say the word together. Do the same for the syllables. Now mouse over each word in the sentence and have your students say the words along with the program. You can click on the green icon to have the program read the sentences. You can also go over the rules and the definitions by clicking on the face and the book icons. Click on the gold arrow to go to the next word. Continue until you have gone through all of the words. There are many words, so spend time on those words that are most appropriate for your class. You might even need to skip some words and cover them another day.

Click on the “Speed Round” button and listen to the directions. Click on “start” and have your students direct you where to click.

Click on “Play the Game” and demonstrate how to play. Have your students pick which child they want to go ballooning with and what balloon they want to use. They can unlock all of the balloons if they get a high enough score. In this game they will read a sentence or two and a question, and then choose between three different answers. When they find the answer they want, they will use the mouse to

move the balloon over the target and then click the mouse to drop the marker. In the top right hand corner, there is a clue to tell them the wind speed; have your students use this to help determine where they should position their balloon. Their score is determined by how close their marker lands to the center of the red X, and how long it took to hit the correct target. If they miss their target, or run out of time, they will receive a penalty and their score for that round will be drastically reduced. Instead of, or in addition to playing the game, you can lead the group through a 50-question quiz.

### **OTHER RELATED ACTIVITIES**

Every time you read anything to your class, have them identify what type of literature you are reading.

Review the types of literature with your students. Count your class off in two's, and divide into two teams. Show your students different books and have the team members take turns saying what type of literature it is. They may answer on their own, or ask teammates to help them. The teams will play Tic-Tac-Toe on the board, being able to place an "x" or an "o" when a correct answer is given.

Give your class a few sentences from different types of literature and have them identify them.

Print a word list from the Learn the Words section. Cut the words apart and have students use the words as flash cards. They can also play Concentration using these cards.

## Learn the Words: Types of Literature

Col-o-nists	People who travel to and settle in a new country or far-off lands.	The Vikings were colonists in Iceland.
Cop-per	A metallic element, reddish-brown in color, that is very good for allowing electricity and heat to flow.	The electrical wires are made of copper.
Coal	A solid, graphite-like brownish or black substance that is burned for fuel, producing power or heat.	West Virginia has a lot of coal.
Ge-nie	A fictional creature who lives in a magic lamp, until someone rubs on it asking the genie to emerge. The genie then gives that person three wishes.	I would like to meet a genie!
Pol-ar bear	A bear with a white coat that lives in cold climates, near both the north and south poles.	The polar bear ate a big salmon.
Ex-plor-er	Someone who journeys to unknown places, seeking new knowledge, adventure, and excitement.	The explorer searched for the hidden island.
Ab-surd	Ridiculous; making no sense.	Wearing high heels at the beach is absurd.
Shim-mer	To appear with flickering light.	The ocean shimmers in the moonlight.
U-ni-corn	A mythological creature that looks like a horse—except it also can fly, has a lion's tail, and has a horn on its forehead.	The unicorn flew in the blue sky.
For-lorn	Very sad	She felt forlorn when she lost her kite.
Gi-ant	A very, very large creature, usually that looks like a human, but is far bigger than any human could be.	The giant stood 100 feet tall!
JourNEY	1. Going from one place to another place 2. A course of action compared to an adventure or exploration	We took a journey to New Mexico.
Mag-i-cal	Creating a pleasing feeling as if being under a spell; enchanting	The music of Mozart is magical.

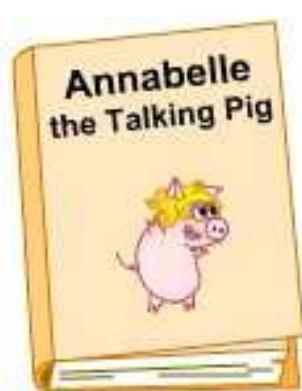

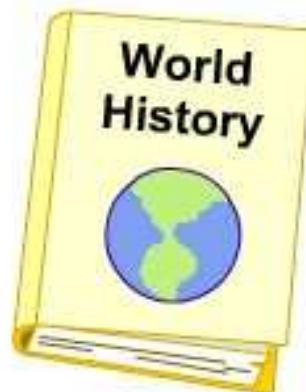

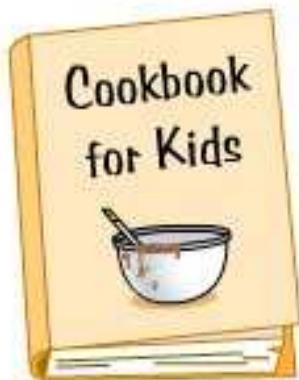

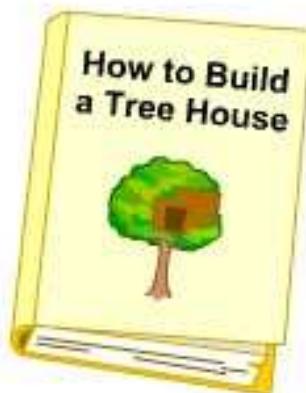

Hot air bal–loon	For traveling, a flexible bag created to be inflated with helium or another hot air that is lighter than the surrounding air, resulting in the balloon floating in the atmosphere.	The red hot air balloon rose into the sky.
I-den–ti–fy	Recognize; know the traits of something	I identify poems by the rhyming lines.
Burn–er	The component of a fuel-burning machine that produces a flame.	The burner makes the balloon rise.
U–nique	Original or uncommon; one of a kind	Her orange sports car is unique.
Po–em	A composition using writing techniques such as rhyme, meter, and metaphor	Her poem about the lake made me feel happy.
Rhyme	A consistency of sounds in words, for instance in poetry at the end of lines	I will give you a dime every time you rhyme.
Prose	As opposed to poetry, writing that is not structured in a meter, and more closely corresponds to conventional speech.	David enjoys the prose of Judy Blume.
Fic–tion	Literature that is imagined, not real	I like fiction about unicorns.
My–thol–o–gy	A collection of fictional stories about a people, including their gods, ancestors, history, beginning, and supernatural heroes	Thor is a character in Norse Mythology.
Leg–end	A famous, fantastical story handed down over time; folklore	In the legend of Paul Bunyan, he has a blue ox named Babe.
Fair–y tale	A wildly imaginative, fictitious story, often involving mythological creatures	<i>Cinderella</i> is my favorite fairy tale.
Non–fic–tion	Prose that is based on real events or topics.	Suzy read a nonfiction book about roses.
Fac–tu–al	Containing facts, not fiction	Her report on ballooning methods was factual.
Peg–a–sus	A winged horse in Greek mythology	Pegasus flew quickly through the clouds.

I–mag–i–na– tion	The creation of an idea or ideas that are new, or not completely sensed or discovered before in day-to-day reality	She used her imagination to write a novel.
Hawk	A bird with a pointed beak and powerful claws used for seizing food	A hawk flew over our garage.
Struc–ture	The arrangement of parts in a building, story, or other entity; framework	Stories have a structure with characters, a setting, and a plot.
Char–ac–ters	People, real or imagined, depicted in an artistic work such as a novel or movie.	Sam liked the characters in the novel.
Set–ting	Where and when a story takes place	The setting for the novel is Rome, Italy.
Plot	The actions that take place in a fictional work	The plot was about a bicycle race across America.
El–e–ments	Components; the parts that comprise a whole	That book had all the elements of a good story.
Festival	An occasion for celebration that occurs at consistent intervals (for instance yearly)	I go to the jazz festival in Chicago every year.
Ea–gle	A fast, sleek, strong bird known for its power and majestic appearance	The eagle flew high above the mountain.
Hound dog	One of the breeds of dog with large droopy ears, often used for hunting.	My hound dog is named Bruce.
Grape–fruit	A round yellow fruit usually a little bigger than an orange, with a slightly sour taste.	Mariana likes grapefruit juice more than orange juice.
Gen–ius	Exceptional intelligence or ability in one or more creative or intellectual areas.	Bob is a genius in designing sports cars.
Con–cern	To cause worry in	The lack of snow was of concern to the skiers.
Pro–pane	A colorless gas commonly used as fuel	Propane gas from the burner makes the hot air balloon fly.
Juic–i–est	The most delicious; most scrumptious	That is the juiciest burger I have ever eaten.
Drool–ing	Saliva dribbling out of the mouth, usually in anticipation of food	Sam began drooling when he smelled the pizza.

Flight	The action of a bird or human flying: by wings for a bird, and by plane, hot air balloon, blimp, etc. by humans.	We could see the whole town during our flight.
--------	--	--

## **Literature: Fiction or Nonfiction**

## **Lesson 2: Writing a Paragraph**

- Coach Time
- Learn the Words – Speed Round
- Writing Racers Game

### **OBJECTIVE**

Students will learn the definition of a paragraph and to use topic sentences, supporting sentences and concluding sentences.

### **STANDARDS**

- Describe the logical connection between particular sentences and paragraphs in a text (e.g., comparison, cause/effect, first/second/third in a sequence).
- Identify the main topic of a multiparagraph text as well as the focus of specific paragraphs within the text.
- Write arguments to support claims in an analysis of substantive topics or texts using valid reasoning and relevant and sufficient evidence.
- Identify the main topic and retell key details of a text.

### **ACTIVITY**

Click on the “Coach Time” icon and then on “start” and listen to the presentation. Have your class listen and have them help you answer the questions.

Click on “Next” and then “Start” to go to the Learn the Words section. Mouse over the word twice, having your students say it, and do the same for the syllables. Now mouse over each word in the sentence and have your students say the words along with the program. You can click on the green icon to have the program read the sentences. You can also go over the rules and the definitions by clicking on the face and the book icons. Click on the gold arrow to go to the next word. Continue until you have gone through all of the words. You can skip over any words you choose.

Click on the “Speed Round” button and listen to the directions. Click on “start” and have your students direct you where to click.

Click on “Play the Game” and demonstrate how to play. In this game the students will drag the sentences up to the paper to write a paragraph. They must put the sentences in the correct order and only include sentences that support the topic. Once their paragraph is complete they click on the “Finished” icon. If they make a mistake they can click on the “Erase” icon and start over. After completing each paragraph, the students can pick from different parts to make up a racecar. Once the car is complete the students will have different choices of tracks they can race their car on. Instead of, or in addition to playing the game, you can lead the group through a 50-question quiz. Is this true? There is not a quiz button.

## **OTHER RELATED ACTIVITIES**

Write a few paragraphs on card stock. Cut the paragraph up into sentences. Have your students put the sentences in the correct order.

Write a paragraph on the board, but write the sentences in the wrong order. Have your students number the sentences to make a correct paragraph.

Model the correct process of writing paragraphs and then have your students write paragraphs in groups, and then on their own.

Print word lists from the Learn the Words section. Cut the words apart by the syllables and have students build the words via flash cards. They can also play Concentration using these cards.

## Learn the Words: Writing a Paragraph

Par-a-graph	A distinct division of one or more sentences that begins on a new, indented line, and is about one subject or thought.	She wrote a paragraph about giraffes.
Mon-i-tor liz-ard	A large, meat-eating lizard found in Asia, Africa, and Australia.	The monitor lizards are huge.
Dan-ger-ous	Having the potential to cause harm to a person; unsafe.	Monitor lizards are dangerous.
Ear-drum	The thin layer of tissue that is between the outer ear and middle ear.	Each eardrum protects the inner ear.
Con-vince	To get someone to agree with you by either talking or writing to them; persuade.	I will convince you that Guam is great.
Gar-den-ing	The act of taking care of a garden.	My aunt thinks gardening is fun.
As-sem-bly line	An efficient pattern of machines, workers, and equipment, where a product is assembled in precise steps while moving down a line, until completed.	That tractor was built on an assembly line.
Com-pon-ents	Things serving as part of a whole; a constituent	There are hundreds of components in a car.
To-geth-er	In or into one place, collection, cluster, etc.	The whole family is together during the holidays.
Race-car	A car used for racing	Her racecar went around the track quickly.
Dis-tinct	Easily recognizable from others	He has a distinct haircut that is very short on the sides.
Min-i-mum	The least quality feasible; the smallest value possible in a numerical assignment	To drive a car, you need a minimum of four tires.
Di-vi-sion	In starting a new paragraph, the place where a new topic or thought is introduced	When there is a division of ideas, I start a new paragraph.
Sub-ject	Main topic; thought	The subject of my paragraph is volcanoes.

Tires	The coverings for a wheel, usually made primarily of rubber.	The monster truck has huge tires.
Ra-di-a-tor	In a car's engine, a cooling device that circulates water to keep the car from overheating.	The radiator on my car broke.
Bod-y	The outer frame that give a car its shape.	The body of the sports car is stylish.
En-gine	A machine that transforms energy into mechanical motion or force.	The engine in that car runs great.
Cru-cial	Very important; essential	It is crucial that the tires on our car are inflated.
Top-ic sen-tence	The first sentence in a paragraph, that says what topic the paragraph is about.	My topic sentence is about my trip to Denmark.
Sup-port-ing sen-tence	A sentence with facts and details to support the topic sentence.	The supporting sentences follow the topic sentence.

## Supporting Sentences

Read each paragraph and cross out the sentence that does not support the main idea.

Jill likes to collect rocks. She looks for interesting rocks wherever she goes. Sometimes she finds big rocks that are too heavy to take home but most of the time she finds small rocks that she can easily carry in her pocket. She really likes to swim in the lake. Her favorite rock is green and white and shaped like a triangle. Jill has a very nice collection of rocks.

Car races can be exciting. The cars go really fast and sometimes they spin out. There are always a lot of people there to watch the race and they like to cheer for their favorite drivers. I think that football is fun. Its always a lot of fun to go see a car race.

There are many reasons why I think broccoli is better than beef jerky. My favorite type of candy is chocolate. Broccoli has many vitamins in it that help keep you healthy. It is softer and easier to chew and its green color makes it fun and exciting to eat. Broccoli even tastes better than beef jerky. If given the choice, I would always pick broccoli over beef jerky.

Tyler and his family visit his grandmother every summer. They always have a fun time while they're there. Tyler likes to swim in her swimming pool and his parents like to sit on the big porch and drink lemonade. They always look forward to going every year. Tyler's aunt is going to Texas next winter.

## **Lesson 3: Nouns, Pronouns, Verbs, and Adjectives**

- Coach Time
- Learn the Words – Speed Round
- Home Run Derby Game

### **OBJECTIVE**

Students will be able to identify and correctly use nouns, pronouns, adjectives and verbs.

### **STANDARDS**

- Explain the function of nouns, pronouns, verbs, adjectives, and adverbs in general and their functions in particular sentences.
- Use words and phrases acquired through conversations, reading and being read to, and responding to texts, including using adjectives and adverbs to describe (e.g., *When other kids are happy that makes me happy*).

### **ACTIVITY**

Click on the “Coach Time” icon and then on “Start” and listen to the presentation. Have your class listen and have them help you answer the questions.

Click on “Next” and then “Start” to go to the Learn the Words section. Mouse over the word twice having your students say it, and then go over the different syllables in the word. Now mouse over each word in the sentence and have your students say the words along with the program; then have the class say the entire sentence. You can click on the green icon to have the program read the sentences. You can also go over the rules and the definitions by clicking on the face and the book icons. Click on the gold arrow to go to the next word.

Click on the “Speed Round” button and listen to the directions. Click on “start” and have your students direct you where to click.

Click on “Play the Game”, and demonstrate how to play. Follow the directions of the coach to play the game. Your students will pick out the nouns, pronouns, adjectives and verbs and you will get a chance at to bat. If they swing at the right time they can get a homerun. The object of the game is to get as many runs as possible. They need 8 runs for a silver medal and 11 runs for a gold medal. Instead of, or in addition to playing the game, you can lead the group through a 50-question quiz.

### **OTHER RELATED ACTIVITIES**

Do a "Hollywood Squares" type game with nouns, verbs, pronouns and adjectives. Two students, or groups, compete, trying to get tic-tack-toe with students who sit on the floor or at desks. You play the host. When a student picks a "square" to try and get an X or O, you say a word and use it in a sentence. The person, or group, in the square says the word is a noun, pronoun, adjective, or a verb. The contestant playing then agrees or disagrees with that. The two students, groups, keep playing until one gets tic-tack-toe.

Have your students write tongue twisters using nouns, verbs, adjectives, pronouns, and adverbs.

Nouns - use at least one (Cathy, cat, catfish, Captain Caveman)

Verbs - use at least one (caught, carried)

Adjectives - use several (careful, clumsy, caring, courageous)

Adverbs - use at least one (carefully)

Pronoun- use at least one (her, she)

Using this model, we now have a tongue twister: Clumsy Cathy carefully carried home a courageous, cold, catfish she caught for her cat Captain Caveman.

Have your students write a paragraph or story. Once they have finished, have them go back and underline the nouns once and the pronouns twice. Then have them star the verbs and highlight the adjectives.

Print word lists from the Learn the Words section. Cut the words apart by the syllables and have students build the words via flash cards. They can also play Concentration using these cards.

# **Lesson 5: Punctuation and Capitalization**

- Coach Time
- Learn the Words – Speed Round
- Punctuation Palace

## **OBJECTIVE**

Students will learn the importance and correct use of periods, question marks and exclamation points.

## **STANDARDS**

- Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.
- Choose punctuation for effect.

## **ACTIVITY**

Click on the Coach Time icon and then on “start” and listen to the presentation. Have your class listen and have them help you answer the questions.

Click on “Next” and then “Start” to go to the Learn the Words section. Mouse over the word twice, having your students say it the second time, and do the same for the syllables. Now mouse over each word in the sentence and have your students say the words along with the program. You can click on the green icon to have the program read the sentences. You can also go over the rules and the definitions by clicking on the face and the book icons. Click on the gold arrow to go to the next word. Continue until you have gone through all of the words.

Click on the “Speed Round” button and listen to the directions. Click on “start” and have your students direct you where to click.

Click on “Play the Game” and demonstrate how to play. Your students will use the arrows, on the keyboard, to move the girl through the rooms collecting the arrows and the coins as she goes. Once she goes through the door, they will read the sentence at the top and find the mistakes. The students will use the different arrowheads to correct the sentence. They will click on an arrowhead, and then on the mistake it is correcting until all of the mistakes are corrected. Once they get through all of the levels, they will aim at and hit the statue that goes with the correct sentence to win coins. Instead of, or in addition to playing the game, you can lead the group through a 50-question quiz.

## **OTHER RELATED ACTIVITIES**

Divide your students into pairs. Have each pair make a game board with at least 20 squares of red, green, blue, and yellow. The squares should form a path leading

to a picture of a reward. Each pair should make a spinner which is divided into the four colors. When the children make their games, they should include at least twenty index cards on which they have written twenty sentences-five each of statements, questions, commands, and explanations-but without the end punctuation. To play, the player spins the spinner and goes to the square of the indicated color. The player then chooses a sentence from the pile of sentences. If he or she can tell what kind of sentence it is, the player can stay on the square. If he or she cannot identify the sentence type, the player must return to the previous square. The first player to reach the reward wins.

Write sentences on the board leaving off punctuation. Have the students write in the missing punctuation marks.

Print word lists from the Learn the Words section. Cut the words apart by the syllables and have students build the words via flash cards. They can also play Concentration using these cards.

# **Lesson 6: Spelling Strategies**

- Coach Time
- Learn the Words – Speed Round
- Spelling Breakout Game

## **OBJECTIVE**

Students will understand and properly use various spelling strategies.

## **STANDARDS**

- Use conventional spelling for high-frequency and other studied words and for adding suffixes to base words (e.g., *sitting, smiled, cries, happiness*).

## **ACTIVITY**

Click on the Coach Time icon and then on “start” and listen to the presentation. Have your class listen and have them help you answer the questions.

Click on “Next” and then “Start” to go to the Learn the Words section. Mouse over the word twice, having your students say it the second time, and do the same for the syllables. Now mouse over each word in the sentence and have your students say the words along with the program. You can click on the green icon to have the program read the sentences. You can also go over the rules and the definitions by clicking on the face and the book icons. Click on the gold arrow to go to the next word. Continue until you have gone through all of the words.

Click on the “Speed Round” button and listen to the directions. Click on “start” and have your students direct you where to click.

First click on “Spelling Rules” if you want to review the rules. Then click on “Play the Game”, and demonstrate how to play. Your students will answer the questions to be able to try for a hockey goal. They will click on the space bar to set the power and angle. They will try to make as many goals as possible so they can win a gold medal. They need seven goals for a gold medal. Instead of, or in addition to playing the game, you can lead the group through a 50-question quiz.

## **OTHER RELATED ACTIVITIES**

Group your students into pairs. Have your students make a grid similar to the grid for the game Battleship. Have each student pick spelling words from the list and write them spread out on the grid. The first player guesses a coordinate. If there is a word in that box, the second player tells them the word. The first player must spell it correctly to gain a point. If the first player does not spell it correctly, he/she does not get the point and loses the turn. If they miss a word, they may guess the

coordinate again and try to spell the word correctly. The first student to get all the words spelled correctly wins.

Group students into groups of four, give each student a number: 1, 2, 3, or 4. Before the activity begins, write each team's name across the board. Also have four Popsicle sticks with the numbers 1, 2, 3, or 4 written on one end placed in a cup with the numbers down. Pronounce the spelling word, and then allow the teams 15-30 seconds to practice spelling the word within the team, making sure each member can spell the word. Say stop when the time is up and bring everyone to silence. Repeat the word and randomly choose a stick from the cup. If the stick has, for example, a "2" on it, then all the 2's from each team come to the board and write the word below their team name large enough to be read, but small enough to be covered with their hand. Walk along and peek under each cupped hand, awarding a point to each team whose member has correctly spelled the word. Have the students erase their word after you see it. The team with the most points wins.

Print word lists for the Learn the Words section. Cut the words apart and have students use the words as flash cards. They can also play Concentration using these cards.

# **Lesson 7: Reading Comprehension Strategies**

- Coach Time
- Learn the Words – Speed Round
- Bowling for Bugs Game

## **GOAL**

Students will use different reading strategies to understand what they read. Students will understand the main idea of the story, remember details, make connections, make predictions, and summarize.

## **STANDARDS**

- By the end of the year, read and comprehend literature, including stories and poetry, in the grades 2-3 text complexity band proficiently, with scaffolding as needed at the high end of the range.
- Determine the main idea of a text; recount the key details and explain how they support the main idea.
- Identify real-life connections between words and their use (e.g., describe people who are *friendly* or *helpful*).
- Read on-level text with purpose and understanding.
- Identify real-life connections between words and their use (e.g., describe people who are friendly or helpful).
- Acquire and use accurately grade-appropriate conversational, general academic, and domain-specific words and phrases, including those that signal spatial and temporal relationships (e.g., After dinner that night we went looking for them).

## **ACTIVITY**

Click on the Coach Time icon and then on “start” and listen to the presentation. Have your class listen and have them help you answer the questions.

Click on “Next” and then “Start” to go to the Learn the Words section. Mouse over the word twice, having your students say it the second time. Then mouse over the syllables, and next do the same for each word in the sentence, having your students say the words along with the program. You can click on the green icon to have the program read the sentences. You can also go over the rules and the definitions by clicking on the face and the book icons. Click on the gold arrows to go to the next or previous word. Continue until you have gone through all of the words.

Click on the “Speed Round” button and listen to the directions. Click on “start” and have your students direct you where to click.

Click on "Practice Throw" if you want to practice a little. Click on "Play the Game", and demonstrate how to play. Your students will read the paragraphs and answer the questions to earn bowling pins. If they follow the directions to learn how to bowl well, and knock down all ten pins they will earn a bug that they can feed to a frog at the end of a game. They need to knock down 110 pins to earn a gold medal. Instead of, or in addition to playing the game, you can lead the group through a 50-question quiz.

### **OTHER RELATED ACTIVITIES**

Give each student pictures from a story and different colored paper squares. Have your students make a story quilt with the paper and the pictures. Have them sequence the pictures from the story and glue them to the squares. Then have your students glue the squares onto one piece of paper to make their quilt.

Have your students work in small cooperative groups to read a passage. Have them write a summary of what they have read, then shorten the summary into one sentence. Have each group present their sentence to the class.

Make your own bowling pins and have your students answer question correctly to earn a chance to bowl. Split your class into teams; the team with the most pins knocked down wins. To make your bowling pins, get two liter soda bottles and fill them with about two inches of sand. Use a small jelly ball as a bowling ball.

## In Your Own Words

Read the story, and then write 2 or 3 sentences, in your own words, summarizing what happened in the story.

One day Bill, one of the workers at the zoo, brought his skateboard into the giraffe's area and was skating around while he fed the giraffes. Freddy the giraffe thought it was so cool how Bill was zipping around so fast and he wanted to try it too. So when Bill wasn't looking, Freddy hid the skateboard under some leaves. When all the workers left, Freddy got the skateboard out and started riding around on it. He couldn't believe how much fun it was. All the other giraffes stared in awe at this young giraffe zooming by them. Later, Bill came back to look for his skateboard and he saw Freddy doing tricks! Freddy was so good that he became famous and was known as the Amazing Skateboarding Giraffe and many people came to the zoo to see him perform.

## **What's the Point?**

Read each paragraph and then circle the answer that best explains the main idea.

Ryan loves to play sports. His favorite sport is basketball because he can play it in his front yard with his best friend James. If it's raining, Ryan likes to go bowling because it's a fun sport to play indoors. Sometimes on Saturdays, Ryan gets a big group of friends together to play baseball.

What is the main idea of this paragraph?

- a) Ryan has a lot of friends.
- b) Ryan enjoys playing sports.
- c) Ryan's favorite sport is basketball.
- d) Ryan plays baseball every Saturday.

Luke eats too much junk food. He only eats chocolate for breakfast and he usually has potato chips and oatmeal cookies for dinner. He often gets sick because he isn't getting the nutrition his body needs. He needs to eat more vegetables so he can be healthy and strong.

What is the main idea of this paragraph?

- a) Vegetables are good for you.
- b) Luke gets sick often.
- c) Luke eats chocolate for breakfast.
- d) Too much junk food isn't good for Luke.

Mary had never built a model airplane before so she made several mistakes while putting it together. She glued the wings on backwards and put the wheels in the wrong place. She fixed the mistakes and the next time she built a model airplane, she knew exactly how to do it.

What is the main idea of this paragraph?

- a) Mary isn't very good at building model airplanes.
- b) Mary put the wings on backwards.
- c) Mary learned from her mistakes.
- d) Mary won the model airplane building contest.

# Prior Knowledge

After you read each sentence in the story, write down any prior knowledge you have about what happened. For example, for the first sentence, you could write about a time you went to the library or about an exciting book you have read.

Last week I got a really exciting book from the library. It was a mystery about a boy who had to find a missing puzzle piece in order to figure out who kidnapped his pet dog. I think the most exciting part was when the boy lost his flashlight in the maze and had to find his way out in the dark. The next time I go to the library, I'm going to see if there are any other books by the same author.

## Making Predictions

Read each story and then make a prediction about what you think will probably happen next. Look for clues about where the story is leading.

Brooke studied really hard for her history test and finished it quickly since she knew all of the answers. The teacher graded the tests and handed them back to the students.

## **Lesson 8: Review Games**

- Learn the Words – Speed Round
- Spell-it Game
- Hurricane Hurdles

### **GOAL**

Students will be able to spell words correctly and quickly. Students will review all the lessons of this course.

### **STANDARDS**

- Use conventional spelling for high-frequency and other studied words and for adding suffixes to base words (e.g., *sitting, smiled, cries, happiness*).

### **ACTIVITY**

Click on “Review Games” and then on “Learn the Words.” Click on “Start” to go to the Learn the Words section. Mouse over the word twice, having your students say it the second time. Then mouse over the syllables, and next do the same for each word in the sentence, having your students say the words along with the program. You can click on the green icon to have the program read the sentences. You can also go over the rules and the definitions by clicking on the face and the book icons. Click on the gold arrows to go to the next or previous word. Continue until you have gone through all of the words.

Click on the “Speed Round” button and listen to the directions. Click on “start” and have your students direct you where to click.

Click on “Play the Game,” or “Practice” to start. In this activity students are challenged to quickly click on words or type words correctly. Students can choose their player and choose three levels of difficulty: the bronze, silver, and gold medal challengers. The bronze and silver medal games give the student more time to answer the questions. This game is set up similar to Jeopardy. There are five different categories to choose from: Missing Letter, Extra Letter, Spell-It, Who’s Right, and Who’s Wrong. The student will pick a category and an amount to play for. The player with the most money at the end of twelve questions is the winner. If the student wins they will go to the speed round for a chance to earn more money. There is a high score list to help motivate high achievement. Instead of, or in addition to playing the game, you can lead the group through a 50-question quiz.

### **OTHER RELATED ACTIVITIES**

Make your own spell-it game. Have your students spell words, fill in missing letters and fix mistakes. Have them pick the categories and amounts they want to play for. You can split the class into teams, or have them compete individually.

Play spelling baseball. Use words from all the word lists in our program. Divide your class into teams. Designate first, second, third and home base in your class. Teams line up facing each other by a table. You say the word and the first person from the team to tap the table spells the word. If they are correct they go to first base. The other player goes to the end of the line. The play continues as students tap and spell the words. Both teams will have players going around the bases. When they get 'home', they put a tally mark under their team name. Play continues until all words are used. The team with the most tally marks wins.

## **Lesson 9: Hurricane Hurdles**

- Hurricane Hurdles Review Game

### **GOAL**

Students will be able to spot and correct spelling and grammatical mistakes.

### **ACTIVITY**

In this review activity covering all topics in the course, students choose to race against bronze, silver, or gold medal level runners. The bronze runners are the slowest and therefore the easiest to beat. The silver runners are faster than the bronze, and the gold medal runners are the fastest. In this game the students will read a sentence and look for either a spelling or grammar error. When they find the error they click on it. If there are no mistakes, they click on the green icon. The faster they correct the errors the faster they will run. If the student runs faster than the team they choose to run against they will earn a bronze, silver, or a gold medal.

### **OTHER RELATED ACTIVITIES**

Design an obstacle course with different stations. At each station have a question relating to the topics covered in this program. After the students answer the question correctly they can do the activity, such as 10 jumping jacks, and then move on to the next station. Time each group having one group go through the stations at a time. The group with the fastest score wins.

Put three lines of tape on the floor; each one a little farther from a trashcan. Divide your students into two teams. If a child answers a question from the program correctly, they get to come in front of the class and try to throw a ball into the trashcan. The line that is closest to the trashcan is 1 point, the next line is 2 points, and the farthest is worth 3 points. The team with the most points at the end of a certain time wins.

Jill likes to collect rocks. She looks for interesting rocks wherever she goes. Sometimes she finds big rocks that are too heavy to take home but most of the time she finds small rocks that she can easily carry in her pocket. ~~She really likes to swim in the lake.~~ Her favorite rock is green and white and shaped like a triangle. Jill has a very nice collection of rocks.

Car races can be exciting. The cars go really fast and sometimes they spin out. There are always a lot of people there to watch the race and they like to cheer for their favorite drivers. ~~I think that football is fun.~~ Its always a lot of fun to go see a car race.

There are many reasons why I think broccoli is better than beef jerky. ~~My favorite type of candy is chocolate.~~ Broccoli has many vitamins in it that help keep you healthy. It is softer and easier to chew and its green color makes it fun and exciting to eat. Broccoli even tastes better than beef jerky. If given the choice, I would always pick broccoli over beef jerky.

Tyler and his family visit his grandmother every summer. They always have a fun time while they're there. Tyler likes to swim in her swimming pool and his parents like to sit on the big porch and drink lemonade. They always look forward to going every year. ~~Tyler's aunt is going to Texas next winter.~~

# The Gold Medal Motivational and Data Tracking System

- The Gold Medal Progress page
- Speed Rounds

## The Gold Medal Progress Page

Students (or teachers) can keep track of their Gold Star status, by clicking on the Medal button from any page or screen. The Gold Medal Progress page displays the student's name and all of the Bronze, Silver and Gold Medals they have earned. Click on the Training tab to see completion status for the Coach Time training (instruction) activities. Click on the Speed Round tab to see the Speed Round scores.

Our Gold Medal Motivational and Data Tracking System serves as a way to reward students and motivate them to complete all of the games and activities. It is similar to our Super Star System in our earlier programs, however in Phonics 3b the student progress is shown on the progress bar and it takes full completion of all three components to achieve a Gold Medal Certificate of Achievement.

Most students love earning Bronze, Silver and Gold Medals. Once they have earned a few medals, they want to keep earning stars until they have a Bronze, Silver or Gold Medal on every activity, game, a Coach Time certificate on every lesson and a Speed Round score of at least 15 on each Speed Round.

The Gold Medal Progress page also serves as a guide to the teacher to all of the activities and games in the program.

Students earn a Bronze or Silver Medal if they complete an activity with some mistakes. Students earn a Gold Medal if they complete the activity without any mistakes. Students earn a completion certificate for each Coach Time by completing each interactive instructional lesson. Speed Rounds must be completed to a score of 15 or higher. Note: our online version does allow the teacher to change the difficulty level so that students can make some mistakes and still earn a Gold Medal.

Most students will use the Gold Medal Progress page to navigate to the games and activities that they have not completed to the Gold Medal level. From the Gold Medal Progress page, just click on a medal to go to that game. When students use the Gold Medal Progress page as a navigational system, they do tend to overlook the "Learn the Words" sections and Speed Rounds. We encourage you to remind them to spend time in these activities before going on. The "Learn the Words" sections

and Speed Rounds will help prepare the student for the games. The “Learn the Words” sections and Speed Rounds make excellent whole class activities.

Many teachers require the students to complete an entire lesson in order before going on to the next lesson.

Once a student completes enough Bronze, Silver or Gold Medals, the star at the bottom of the screen will turn bronze then silver. Once a student has completed all of the games, presentations and Speed Rounds to the gold level, the medal at the bottom of the page will turn gold. With your permission, they can print out the Bronze, Silver or Gold medal certificate, depending on their accomplishments by clicking on the medal at the bottom of the screen (note – you can lock the printing, if you wish).

The objective of the program is to have the students complete all of the games, and activities and to earn a Gold Medal Certificate of Achievement. If a student has a Bronze or Silver Medal, they can repeat that game as many times as they need until they earn a Gold Medal.

Some teachers print the certificates and post them in the classroom. Other teachers create a Gold Medal badge as an additional reward for students who have achieved a Gold Medal Certificate.

## Speed Rounds

Another feature in this program is our “Speed Rounds”, which can be found at the end of our “Learn the Words” activities. Students are encouraged to score 15 points or higher before going on the game. Our “Speed Rounds” are basically timed flash cards that allow the student to build immediate recognition (fluency) of the words and sounds. A cumulative point total of the “Speed Rounds” can be found by clicking on the “Speed Round” tab on the progress page. Students can also click on the buttons for each speed round to go to the “Learn the Words” page for that speed round.

Unlike our earlier phonics titles, the Speed Rounds are not optional in the Gold Medal System. We encourage you to require a score of 15 (note: the red label turns green) on each Speed Round. While a score of 15 is encouraged, there is no limit to the speed round scores. Students can compete with the class to see who can achieve the highest Speed Round score for an activity or for the overall score.

# Educational Application

- Uses
- Research and State Standards
- Instructional Design

## **Use of this program and this guide:**

There are numerous ways to use Language Arts Review 3b - Advanced Level II. This guide is primarily intended for the classroom teacher who is doing a whole class presentation. The guide assumes that you have some way of displaying the program to the entire class and that all of the students will be actively engaged in the presentation of the program.

## **Some of the other uses of the program:**

Activity Centers: The program is certainly appropriate for use in activity centers because it is easy to use and students generally require very little assistance. Teachers can then use the progress page and reporting features to track the student's progress.

Some specific activity centers uses are:

1. Differentiated Instruction – working on specific and different skills needed by different students.
2. Remediation – working on specific below-grade-level skills.
3. Above Grade Level – working on skills not covered in class for students who require more challenge.

Besides the classroom, this program is also very appropriate for:

1. Computer Lab – site and network versions of this program are available to allow students to work at their own pace in a computer lab setting to build skills being covered in class or skills already covered above.
2. After-school programs – using after-school time to build and review skills required for advancement.
3. At-home Use – parents can purchase the program for additional reinforcement at home or schools can make the Super Star Online version available (at no additional cost) to students and parents for at-home use. Super Star Online features a special "Parent" button to encourage parents to work with their child at home.

## **Research and Common Core State Standards Correlations:**

Language Arts Review 3a - Advanced Level is research based. You can review our research and effectiveness studies at: <http://helpme2learn.com/school/research> .

State Standards Correlations – Language Arts Review 3a - Advanced Level is correlated to the state standards of all 50 states. Each User's Guide and Lesson

Plans contains the standards for that course. You can request standards for a specific state.

### **Instructional Design:**

Instructional Theory – You expect a lot out of educational software and we try to deliver everything you expect and more. We subscribe to the theory of Multiple Intelligences as developed by Howard Garner. We believe that educational instruction is most effective when it is presented in a way that reaches as many intelligences and as many students as possible. Because we use multi-media, we can be very effective at doing that. This is not just a language arts program that appeals to the logical intelligences; this program appeals to almost every intelligence to develop reading skills and other skills at the same time.

Since you are using our software, it is obvious that you are committed to using all the tools available to you to make your class instruction more interesting and more multi-dimensional. We applaud your taking the extra effort to step away from the traditional lecture-only class instruction.

We also have the following objectives:

- Engaging and Fun - We try to make sure that our program will be engaging and fun. Our objective is to take the work out of learning phonics and make it play. Our objective is to change students' perception about language arts as being difficult and boring; turning it into something they love. We want language arts to become easy and understandable. We want our language arts games to be challenging, yet give a sense of accomplishment as students progress through the activities and games. We believe that using our software can help change students' attitudes about learning and about school. Our programs are often the school activity that they look forward to the most.
- Educationally appropriate – This program was built on the topics as outlined in state standards. Our objective is to give you, the teacher, instructional support for the lessons you commonly teach in your classroom. Our goal is to help give your students a tool to master your lessons more quickly and retain the material longer. Our programs are particularly appropriate when students need a lot of repetitive practice. When students master the material quickly, you have more time to work on other or more advanced lessons.
- User-friendly – this is a buzzword that a lot of companies use. Our customers repeatedly tell us how user-friendly our software is and we are continually looking for ways to improve the user-friendliness of our software. We also believe that the software should be user-friendly to the teacher, so we give you additional controls in the Student Management section of the Teachers and Parents section so you can make it even more appropriate to your class, if you want to.

- Reporting – Besides our progress page, we offer printer-friendly reports that can be used to track the progress of the class or student. Our most detailed report is the Pre-Test and Post-Test report.
- Multi-cultural – we are committed to multi-cultural diversity and believe that it is important that kids recognize characters in the programs with similarities to them and other characters that are different. The main characters of this program are our “Super Star” kids which represent different races, skin and hair colors. We also include both male and female characters.

Whether your class is using this program in a computer lab with headphones, or you’re using an overhead projector to present lessons to the class, you’re sure to find the activities and games motivating and rewarding.

You will also notice that for most of the lessons, the main page for the games also has a quiz button. These quizzes are not as much fun as the games, but they are a way for students who struggle with timed games to complete the game and earn their Gold Medal by using the quiz.

## Super Star Online

- Overview
- Student Management System
- Parent Button
- At-home Use

### Overview

Super Star Online is a web delivered subscription service to one or all of our Super Star titles.

Some of the other advantages of Super Star Online are:

1. Home use – There is probably no greater advantage than home use. Students will have access to the subscription anywhere they have access to the Internet. Many schools have days that are very full and they just don't have time to let students access the software as much as they would like. With our online version, students with a broadband connection can work in our courses at home and take as much time as they need to complete the lessons. Our online version even records how much time the students are in each lesson.
2. Parental Involvement – The next step with at-home use is to involve parents (or family members) in helping to motivate, track, and work with the child. One of the problems with parental involvement is that some parents don't know how to help their child with homework. **We make it easy for them.** We have added a special "Parent" button to help parents use Super Star Online. The "Parent" button allows parents to view the vocabulary words, activities and games without data tracking, so they do not affect the scores or data tracking of the child. Parents can review the lessons so they know what is required of the child. We offer a wonderful and enjoyable way for parents to work with the school to become involved in the educational success of their child.
3. Family Literacy – Some parents may not have the English language skills needed to help their child. Our "Parent" button gives the parent an opportunity to learn English language skills or math skills along with their child. We believe that a better educated parent will be better prepared to help their child.
4. Easy IT – Our Online version makes it easier for the school's IT department. They don't have to maintain a server, they don't have to worry nearly as much about which operating system the software will run on, and they don't have to worry about security issues with their network. Our online system is supported by most modern operating systems and web browsers.

5. Quick Updates – When we make improvements to our course titles or add course titles, the updates will be available to all students as soon as we make them. You don't have to be concerned with which version you have or if you need to upgrade.
6. Quick Delivery – Once we receive your purchase order, we can get you online in a matter of hours.
7. Remote Administration – For districts or schools that stretch their IT department, our online version allows complete administration of the courses from any location.

### **Class Management System**

Many of the features of Super Star Online are managed by the site administrator. Those features include: importing student names, assigning user names and passwords to the students and teachers, setting up classes and assigning students and teachers to those classes, assigning courses to the classes.

As a teacher, we encourage you to work with the site administrator to organize the system in the most effective way for your classroom. This may mean that you may request sub-classes for students with different program titles available to those in each group. For example, if your last name is Teacher, you might have a class called "Ms. Teacher A" with 14 students and access to Phonics 2a and Phonics 2b. You might also have a class called "Ms. Teacher B" with 8 students and access to Language Arts Review 3a for more advanced students.

It is relatively easy for the site administrator to add or change the names of classes and assign students and programs to classes. But, depending on your school or district, it may not be so easy to get the site administrator to do these tasks for you.

We now offer teachers a way to do most of the class management tasks. The teacher will login to Super Star Online using their teacher account and:

1. Click on "Classes", to see the courses that are assigned to the class by the site administrator. The teacher can then click on "Edit Class" and add or remove the assigned courses by checking or unchecking the courses. The students will only have access to the courses that are assigned to the class.
2. The teacher can then scroll down to Members and check that all of the students have been assigned to the class. If the teacher sees the name of a student who should be included in the class, the teacher can check the name or the teacher can uncheck a name to remove the student from the class. Then click on "Update" to make the changes.

3. **Adding a Student.** If the teacher needs to add students that are not already in the system, the teacher can click on "Students". To add a student, the teacher would click on "Add Student". The teacher would enter the first name and last name of the student, would check the class, would enter a login name (note: read the instructions below Login Name – do not use a login name that is already in use and do not use capital letters), would enter a password, confirm, check Active? Click on "Create". (Note: the school has purchased a number of user seats and teachers cannot enter active students if that number has been exceeded).
4. Teachers can also remove a student from the class. Click on "Students", then I suggest next to "Arrange by" – click on the down arrow and click on Class to get a class list. Click on "Edit" by the name of a student and uncheck the name of the class and then "Update".

If a student is no longer at the school, the teacher can make that student inactive (making a student inactive means that the student will no longer take an active seat and will no longer be counted against the number of seats the school has purchased) uncheck "Active?" at the bottom of the screen, then Update.

Note: the user/login name and password was probably determined by the site administrator. If you find user name or password to be too difficult for your students or if a student cannot remember their password, you can change it. For security purposes, our system does not show the password, but you can change it by entering a new password in the box and confirm. Please coordinate any changes with your site administrator. If the courses are also used in a computer lab, please coordinate any changes with the computer lab instructor.

### **Student Management System**

To access the Student Management System, click on the Teacher & Admins button found on the contents page.

Teachers & Admin button

The next screen shows the menu for the Teachers and Admin section. The Print Pages, Credits, and How To Use The Program sections are all very similar to the CD-ROM version and will not be covered.

Click on the Student Management button to enter the Student Management System.

Click on the Class & Student Settings button to go the Class and Student Setting menu. These settings are all optional settings and it is not necessary that you use any of these settings, however, you may find some of these settings very useful.

The Class & Student Settings menu has four buttons:

1. Game Locks & Difficulty: contains the teacher controlled setting for the program. These controls allow the teacher to set the program to run in the progressive manner (meaning that students must complete each lesson, before moving on to the next lesson), controls for the difficulty level, assignment of stars, and activity locks.
2. Test Locks & Features contains settings to control access to the program and to the pre-test and post-test as well as printing.
3. Parent Mode: contains setting to control the Parent Mode features.
4. Reset Default Class Settings: allows the teachers controls to be reset to the default.

The Game Locks & Difficulty menu allows you to apply the setting to all the students in the class or to an individual student. Our programs are designed to be fun and to make learning fun. Our programs are made so that students can easily navigate through the programs and they can earn Bronze, Silver and Gold Medals and will be motivated to earn all the Gold Medals and complete each part of the lesson. We call this an “open system” where all of the games and activities are open to the student to enjoy. Unfortunately, some students need a more structured system. At the request of teachers, we have given you the ability to control access to the games and activities.

We also know of teachers (or lab instructors) who apply verbal structure setting. They instruct the students that they must earn a Gold Medal before moving on to the next activity. We believe that this is a much easier and better approach, before applying the progressive game settings to the class. Then when necessary, the individual settings can be applied when a particular student does not comply with the verbal instructions.

Individual Student Game Settings – click on the Individual Student Game Settings button to start. The first screen shows a list of the students in the class, click on the name of the student that you want to apply the individual setting to.

Game Locks & Difficulty - The next menu has a list of activities in the Game Name column. Scroll down to the game you want to control. The Current Star column shows the current Star the student has earned. The teacher can click on this button to change the star. Presentations have a state of complete (Gold Medal) or incomplete. Activities or games will be: No Star, Bronze, Silver or Gold.

Bronze, Silver or Gold.

Set Medal - It is possible that a teacher might want to award a student a Bronze, Silver or Gold Medal if they believe the student has earned one.

The Difficulty level setting can be changed to help make the course more appropriate for the student. Our default system awards a student a completion certificate for listening to an interactive presentation all the way through and for completing each activity/game without any mistakes. The Speed Rounds after the "Learn the Words" sections requires students to earn a score of 15 in order for the display to show green. If you want to allow students to make some mistakes, click on the button in the difficulty column for each game, you can chose from the most relaxed level of Casual to Advanced. Generally, students are allowed one more mistake for each lower level of difficulty.

The final setting is the Lock. Here teachers can lock or unlock specific activities. Click on an unlocked (open green lock) to lock it (turns red locked). Generally, you might rather use the class settings to set this lock for the entire class.

Click on the Class Game Settings button to apply settings to the entire class. These settings are similar to the individual settings only they will be applied to the entire class. The class settings will override individual settings.

### Progress Tree button

Progress Tree – since the operation of the class very similar to the operation of individual setting, cover the Progress Tree. The Progress Tree can require students to complete each activity to a level (or 15 points for a Speed Round) before the next activity. The Progress Tree can be used to keep students from jumping around from one activity to another. To start the Progress Tree, click on the red

settings is I will only be used to Gold Medal going on to

The Progress Tree startup screen allows you to select where you want the progress tree to start from. Normally, the first activity is selected, however you can chose any activity as the starting place. If you chose one of the later activities, then all the previous activities will be open to students. You might want to do this to give them a chance to explore the first few activities.

Once you have selected to use the Progress Tree, the Progress Tree button will show on and the starting place will be displayed. You can click on the starting place button to change the starting place.

Test Locks & Features – click on the Test Locks & Features button to see the Test Locks & Features menu.

The Lock Printing button is unlocked by default. This means that anyone can use the print features within the program to print pages such as the Gold Medal Progress page reports, the Gold Medal Certificate of Achievement and any other print page. If you lock the printing, teachers will still be able to print the class and detailed reports.

To lock printing, click on the Lock Printing button. The button will turn red, the lock will show locked and the check box will be checked. Locking printing will help prevent students from printing pages that you did not want them to print, but you will need to turn this feature on if you want them to print their Certificates of Achievement.

To lock the program, click on the Lock Program button. This would prevent students from having access to any of the main program. This would typically be used if you want them to do the pre-test or post-test.

Click on the Lock Post-Test button to lock the post-test portion of the program. This is usually a good idea; however, if a student does do a post-test, it will be replaced the next time they do a post-test, so it generally isn't a problem.

Click on the Lock Pre-Test & Post-Test button to lock the test portion of the program. This will prevent students from taking the tests without your permission. If you click on the Lock Pre-Test & Post-Test the button will appear grayed out on the main contents page and will show locked.

Click on the Lock Individual Tests if you want to lock any of the individual tests.

## Parent Mode

Parent Mode – we believe that our Super Star Online presents a wonderful opportunity for parental involvement. Parents will now have an opportunity to take a more active role in helping their child. Parents can review the lessons, review the progress of their child and print a report as often as they would like.

When parents use the Parent Mode, think of it as a practice mode. Parents can play the games and activities and none of their scores are permanently recorded, their scores do not affect the scores of their child. Parents can become familiar with the lessons their child is working on, so they will be better able to help their child with those lessons. Parents can practice the games and activities with their child, then exit the Parent Mode and let their child do the work. Parents who need help with their literacy and phonics skills can use the Parent Mode to learn along with their child.

We believe that there are many benefits to having the school, the teacher, the student and the parents all working together as a team to insure the success of the student. We believe that Super Star Online can greatly improve the effectiveness of this team. But we recognize that encouraging parental involvement takes a bit of work. Many parents aren't used to being involved. We believe that Super Star Online makes it easy and fun for them to be involved and is a unique way to encourage their involvement. But it takes the school, the teacher, and the student to make sure that they know about Super Star Online and how they can be involved. Please make

every effort to let the parents know about your subscription and encourage your students to involve their parents.

When the Parent Mode is enabled (it is off by default), the student and/or parent will see a Parent button on the main contents screen of the course. Parents can then click on the Parent button to enter the course in the Parent Mode. Should teachers decide that they don't want to use this feature, they can disable it by clicking on the Parent Mode button. The Parent Mode button will then show locked, will turn red and will be checked. The Parent button will not be displayed to the student.

Write a Message to Parent – click on this button to display the write a message screen. This screen allows you to write a message that can be viewed by all the parents who use the Parent Mode. The idea of this screen is to allow you to communicate with parents something about what the students are working on and what is expected of them. You can use it anyway you want. You can type directly into the box or you can paste text into the box (keyboard command: control + V). You should remember that all parents will see the same message and that you will need to change the message from time to time. Don't forget to click on Save to save the message.

View Parent Mode Data – once you have your parents working with their children, you can run a report to see how much time the parents are spending in the Parent Mode. Click on this button to see a report of the total parent time, student time and student program progress.

The final button on this menu resets all of the class settings to the default. Use this button if you have made some settings that are giving you some problems or if you just want a fresh start for your class settings.

**Users' Guide/Lesson Plans** – click on this button to view our Users' Guide and Lesson Plans. This is an Adobe Acrobat (.pdf) file and you will need to have the free Acrobat reader ([www.adobe.com](http://www.adobe.com)) installed on your computer in order to be able to view this file. Once you can view this file, you can print any of the pages you want. This file contains some helpful tips, a lesson plan for each of the lessons in the course, the words to the words in the Learn the Words sections, and printable activity pages.

## Understanding the Parent Mode

The Parent Mode – teachers can only see the Parent Mode if they look at it from a student account. Students and Parents will see a “Parent” button on the main menu or contents page (the button is in the same location as the Teachers’ & Admins’ button from a teacher account. Click on the

Parent button to enter the Parent Mode menu.

Message from the Teacher – if the teacher has written a message, the parents will see the message when they first enter the Parent Mode. If the teacher has not written a message, this screen will not appear. The purpose of this screen is to give parents some guidance as to what lessons the child is working on and what is expected of the child.

Parent Mode Menu – the Parent Mode Menu is simple, there is a brief explanation of the Parent Mode, a button to start the Parent Mode and a button to read more about the Parent Mode. Parents can also return to the program without starting the Parent Mode.

Think of the Parent Mode as a practice mode. Parents can play any of the activities or games without affecting the reporting or the progress of the student. The only tracking that occurs is the total amount of time that the parent spends in the Parent Mode. This data is only available on a report to the teacher.

Parent Mode Menu 2 – when the parent clicks on the Turn on Parent Mode button, they will see the next screen that confirms they are now in the Parent Mode. They should notice the Parent Mode button at the bottom of the screen; this indicates that they are now in the Parent Mode. From this screen they can turn off the parent mode, read about the Parent Mode, view a progress report for their child or view the message from the teacher (if there is one).

View Your Child’s Progress – click on this button to view or print a progress report. The top of the report will show the progress through the course and the bottom of

the report will show the progress of the Pre-Test and Post-Test. Click on the Print button next to the Parent Mode button to print this report. Parents can also track the progress of their child from the Gold Medal Progress page; however they need to turn off the Parent Mode in order to be able to navigate to the Gold Medal Progress page.

Gold Medal Progress page – Parents can view and print progress pages for their child from the Gold Medal Progress page.

There are five different views on the Gold Medal Progress page:

- the Gold Medals view
- the Coach Time view
- the Speed Round view
- the Whole Program view
- the Details view

Each view presents the progress in a different format and is designed to help track the progress of the student. Once a student has earned enough medals, Coach Time certificates and Speed Round points, the medal on the Gold Medal Progress page will turn bronze, then silver; parents can click on this star and print a Certificate of Achievement.

The goal of the program is to earn a Gold Medal Certificate of Achievement. To print a Certificate of Achievement, click on the Gold Medal, then click on Yes (note- the teacher has the option of turning the printing feature off, so if your students' certificates won't print, they must ask you to turn the printing feature on).

Parent Mode Button – to begin using the Parent Mode, the parent would click on the Program button. When in the Parent Mode, button will be displayed at the bottom center. Parents can click on the Parent Mode button on the Parent Mode screen and turn off the Parent

course in the Return to the Parent Mode of the screen. to return to the Mode.

It is our hope that the Parent Mode will be a valuable asset to the school, the teacher, the student and to the parent. Super Star Online provides a unique

opportunity for the school to provide an easy to use and fun way for parents to work with their child at home. The level of parent involvement will obviously vary greatly. Some parents will only occasionally check the progress of their child, while some parents will be actively involved. We also encourage parents to use Super Star Online to build their skills as they work with their child.

## **At-home Use**

We have provided the tools to enable your students to use Super Star Online at home, however at-home use will need your support and encouragement to be used. Here are some suggestions for encouraging at-home use.

1. Send a letter home with your students advising the parents that Super Star Online is available and encouraging the parents to work with their child at home. We have a sample parent letter available at [www.helpme2learn.com/support/online](http://www.helpme2learn.com/support/online). Please use this letter as a guide. To complete this letter you will need the user name and password of each student, you should be able to get these from your school's site administrator. You will use the same URL (web address) that you use in your classroom.
2. Remind your students to ask their parents to work with them at home.
3. After a couple of weeks, run a report to see how many parents have logged in and are using the program in the Parent Mode. You may need to send a follow up letter to parents who are not working with their child at home.
4. Whenever you have an open house or meeting with parents, let them know about Super Star Online and how they can use it to work with their child.
5. Suggest to your school administration that they hold a special Super Star Online night where your school explains the use of the program to the parents. You might be able to incorporate this as part of a back to school night or PTA meeting.
6. Use the message center and write a message on a regular basis to your parents. Let them know what lessons you are working on and what to expect from their child.

Some students will not have access at home. Encourage these students to seek out alternative access sites such as the public library, after school programs or relatives who do have Internet access.

The goal of Super Star Online is to build a better bond between the school, the teacher, the student and the parents. This stronger bond will build a better team all working together. We call this the Super Star Strategy for Success.
